SUMMARY

Aspiring full-stack developer and BCA 7th semester student at Tribhuvan University with hands-on experience building cross-platform Flutter applications and RESTful APIs. Experienced in following a complete Software Development Life Cycle (SDLC) — from requirements analysis and system design through to automated testing and production deployment. Seeking an internship to contribute to real engineering challenges and grow within a collaborative technical team.

EDUCATION

Bachelor of Computer Applications (BCA)

2022 — Present

Mechi Multiple Campus, Tribhuvan University — Nepal | 7th Semester (Ongoing)

High School (+2 Science)

Completed April 2021

Dhulabari Secondary School — Nepal

PROFESSIONAL EXPERIENCE

Flutter App Development Trainee

May 3, 2026 — Jun 25, 2026

Techguru Pvt. Ltd, Nepal

- Built cross-platform Flutter applications under structured mentorship, practicing Dart, Node.js, Firebase Authentication, Cloud Firestore integration and Backend Deployment.
- Participated in regular code reviews, strengthening code quality and debugging practices through peer and trainer feedback.

PROJECTS

SmartClass — Cross-Platform Academic Management System

github.com/Reason-Dahal/smartclass

Flutter • Node.js • MongoDB Atlas • Riverpod • JWT • Cloudinary • Render

Built a full-stack academic management system following a complete SDLC SRS v1.1 (30 FRs), system design with ERDs and API spec, and 124 pages of documentation across 6 professional documents.

- Developed a Node.js REST API (31 endpoints, JWT, RBAC, Cloudinary, Gmail SMTP) and a cross-platform Flutter app using Riverpod state management and feature-first architecture with 15+ reusable shared widgets.
- Wrote 95 automated backend tests (Jest + Supertest) and 40 manual test cases on a physical device 100% pass rate. Backend deployed to Render with environment-based configuration.
- Maintained professional Git workflow conventional commits, feature branching, develop/main separation. Production APK submitted for university testing, v2 planned as refinement required on some features.

E-Commerce Platform — Full-Stack Project

https://github.com/Reason-Dahal/ecommerce_frontend

https://github.com/Reason-Dahal/ecommerce_backend

Flutter • Node.js • MongoDB • REST API

- Built a self-initiated full-stack e-commerce app with RESTful APIs for product management, user authentication with JWT, and order handling with MongoDB schema design.
- Implemented a Flutter frontend with product listing, cart management, and order tracking integrated with the custom Node.js backend.
- Designed and tested API endpoints using Postman, practicing REST conventions and proper HTTP status code usage.

Quiz App — Cross-Platform Assessment Tool

<https://github.com/Reason-Dahal/quiz-app>

Flutter • Firebase Authentication • Firestore

- Built a cross-platform quiz app with Firebase Authentication for secure login and Firestore for real-time question sync across devices.
- Implemented score calculation, performance tracking, and category-based quiz filtering with a clean responsive UI.
- Deployed to Android and tested across multiple screen sizes using Flutter's cross-platform capabilities.

Track My Cash — Personal Finance Tracker

<https://github.com/Reason-Dahal/track-my-cash>

Flutter • Dart • SQLite

- Developed a mobile finance tracker with local SQLite storage for offline-first data persistence without internet dependency.
- Built real-time spending visualisations and dynamic category-based reporting using Flutter charts.
- Implemented CRUD operations for income and expense entries with input validation and date filtering.

SKILLS

Mobile Development: - Flutter, Dart

Back-End & Databases: - Node.js, Express, MongoDB, Firebase (Authentication & Firestore), SQFlite

Testing Jest, Supertest: - MongoDB Memory Server, manual test execution

Developer Practices: - Git & GitHub, Postman, REST API design, SDLC documentation, code review

Deployment & DevOps: -Render, MongoDB Atlas, Cloudinary, environment configuration, GitHub-triggered deployments

I confirm that all information stated in this resume is correct and complete to the best of my knowledge.
